

CHERRY Keyswitches

MX RED

Order Designation:
MX1A-L1xx

EFFORTLESS AND FAST: CHERRY MX RED is often the keyswitch of choice for gamers who meticulously select a mechanical keyboard, as they appreciate its long-lasting performance.

- Actuation force: 45cN (grams)
- Switching characteristic: Linear
- Switching point: 2.0mm
- Total Travel: 4.0mm

MX BLUE

Order Designation:
MX1A-E1xx

CHERRY MX BLUE with crystal clear click pressure point and easy operation. The contact actuation is tactile as a precise switching point and can be heard as a «click». Medium spring resistance for unerring key operation. Perfect for situations that require precise entries.

- Actuation force: 45cN (grams)
- Pressure point force: 55cN (grams)
- Switching characteristic: Tactile
- Switching point: 2.0mm
- Total Travel: 4.0mm

MX BLACK

Order Designation:
MX1A-11xx

CHERRY MX BLACK with linear feel and very easy operation. The contact actuates without a tactile switching point. Medium spring resistance for precise key operation. Perfect for situations that require precise data entry.

- Actuation force: 60cN (grams)
- Switching characteristic: Linear
- Switching point: 2.0mm
- Total Travel: 4.0mm

MX SILENT RED & SILENT RGB RED

Order Designation:
MX3A-L1xx
MX3A-L1NA/B (RGB)

Silence is golden. CHERRY MX RED keyswitches with patented pending noise reduction feature integrated 2-component stem and unique Gold Crosspoint contact technology.

- Actuation force: 45cN (grams)
- Switching characteristic: Linear
- Switching point: 1.9mm
- Total Travel: 3.7mm

MX BROWN

Order Designation:
MX1A-G1xx

CHERRY MX BROWN with soft pressure point and easy operation. The contact actuation can be felt as a soft, rubber-like switching point. Light spring resistance for effortless key operation. Perfect for prolonged operation and non stop typists.

- Actuation force: 45cN (grams)
- Pressure point force: 55cN (grams)
- Switching characteristic: Tactile
- Switching point: 2.0mm
- Total Travel: 4.0mm

MX SILENT BLACK & SILENT RGB BLACK

Order Designation:
MX3A-11xx
MX3A-11NA/B (RGB)

Silence is golden. CHERRY MX BLACK keyswitches with patented pending noise reduction feature integrated 2-component stem and unique Gold Crosspoint contact technology.

- Actuation force: 60cN (grams)
- Switching characteristic: Linear
- Switching point: 1.9mm
- Total Travel: 3.7mm

CHERRY Keyswitches

MX RGB RED

Order Designation:
MX1A-L1NA/B

CHERRY MX RGB RED is often the keyswitch of choice for gamers who meticulously select a mechanical keyboard. Over 16 million colors per key with consistent illumination on every keycap.

- Actuation force: 45cN (grams)
- Switching characteristic: Linear
- Switching point: 2.0mm
- Total Travel: 4.0mm

MX RGB BLUE

Order Designation:
MX1A-E1NA/B

CHERRY MX BLUE with crystal clear click pressure point and easy operation. The contact actuation is tactile as a precise switching point and can be heard as a «click». Over 16 million colors per key with consistent illumination on every keycap.

- Actuation force: 45cN (grams)
- Pressure point force: 55cN (grams)
- Switching characteristic: Tactile
- Switching point: 2.0mm
- Total Travel: 4.0mm

MX RGB BLACK

Order Designation:
MX1A-11NA/B

CHERRY MX BLACK with linear feel and very easy operation. The contact actuates without a tactile switching point. Over 16 million colors per key with consistent illumination on every keycap.

- Actuation force: 60cN (grams)
- Switching characteristic: Linear
- Switching point: 2.0mm
- Total Travel: 4.0mm

MX SPEED SILVER & SPEED RGB SILVER

Order Designation:
MX1A-51NN/W
MX1A-51NA/B (RGB)

MX SPEED optimized for extremely fast operation. The MX SPEED is the fastest mechanical CHERRY switch ever. Thanks to its optimized stem geometry, it is 40% faster than the CHERRY MX Standard.

- Actuation force: 45cN (grams)
- Switching characteristic: Linear
- Switching point: 1.2mm
- Total Travel: 3.4mm

MX RGB BROWN

Order Designation:
MX1A-G1NA/B

CHERRY MX BROWN with soft pressure point and easy operation. The contact actuation can be felt as a soft, rubber-like switching point. Over 16 million colors per key with consistent illumination on every keycap.

- Actuation force: 45cN (grams)
- Pressure point force: 55cN (grams)
- Switching characteristic: Tactile
- Switching point: 2.0mm
- Total Travel: 4.0mm

ML

Order Designation:
ML1A-11xW

ML1A is the lowest profile flat version of the world's leading precision technology for CHERRY mechanical keyswitches. The CHERRY Gold Crosspoint contact concept and the unprecedented production quality are unique.

- Actuation force: 45cN (grams)
- Pressure point force: 50cN (grams)
- Switching characteristic: Linear
- Switching point: 1.5mm
- Total Travel: 3.0mm
